

# Introduction to Intel® Distribution of **OpenVINO™** toolkit for Computer Vision Applications

100: Beginner-level  
Lesson 01

# Introduction to Intel® Distribution of **OpenVINO™** toolkit for Computer Vision Application

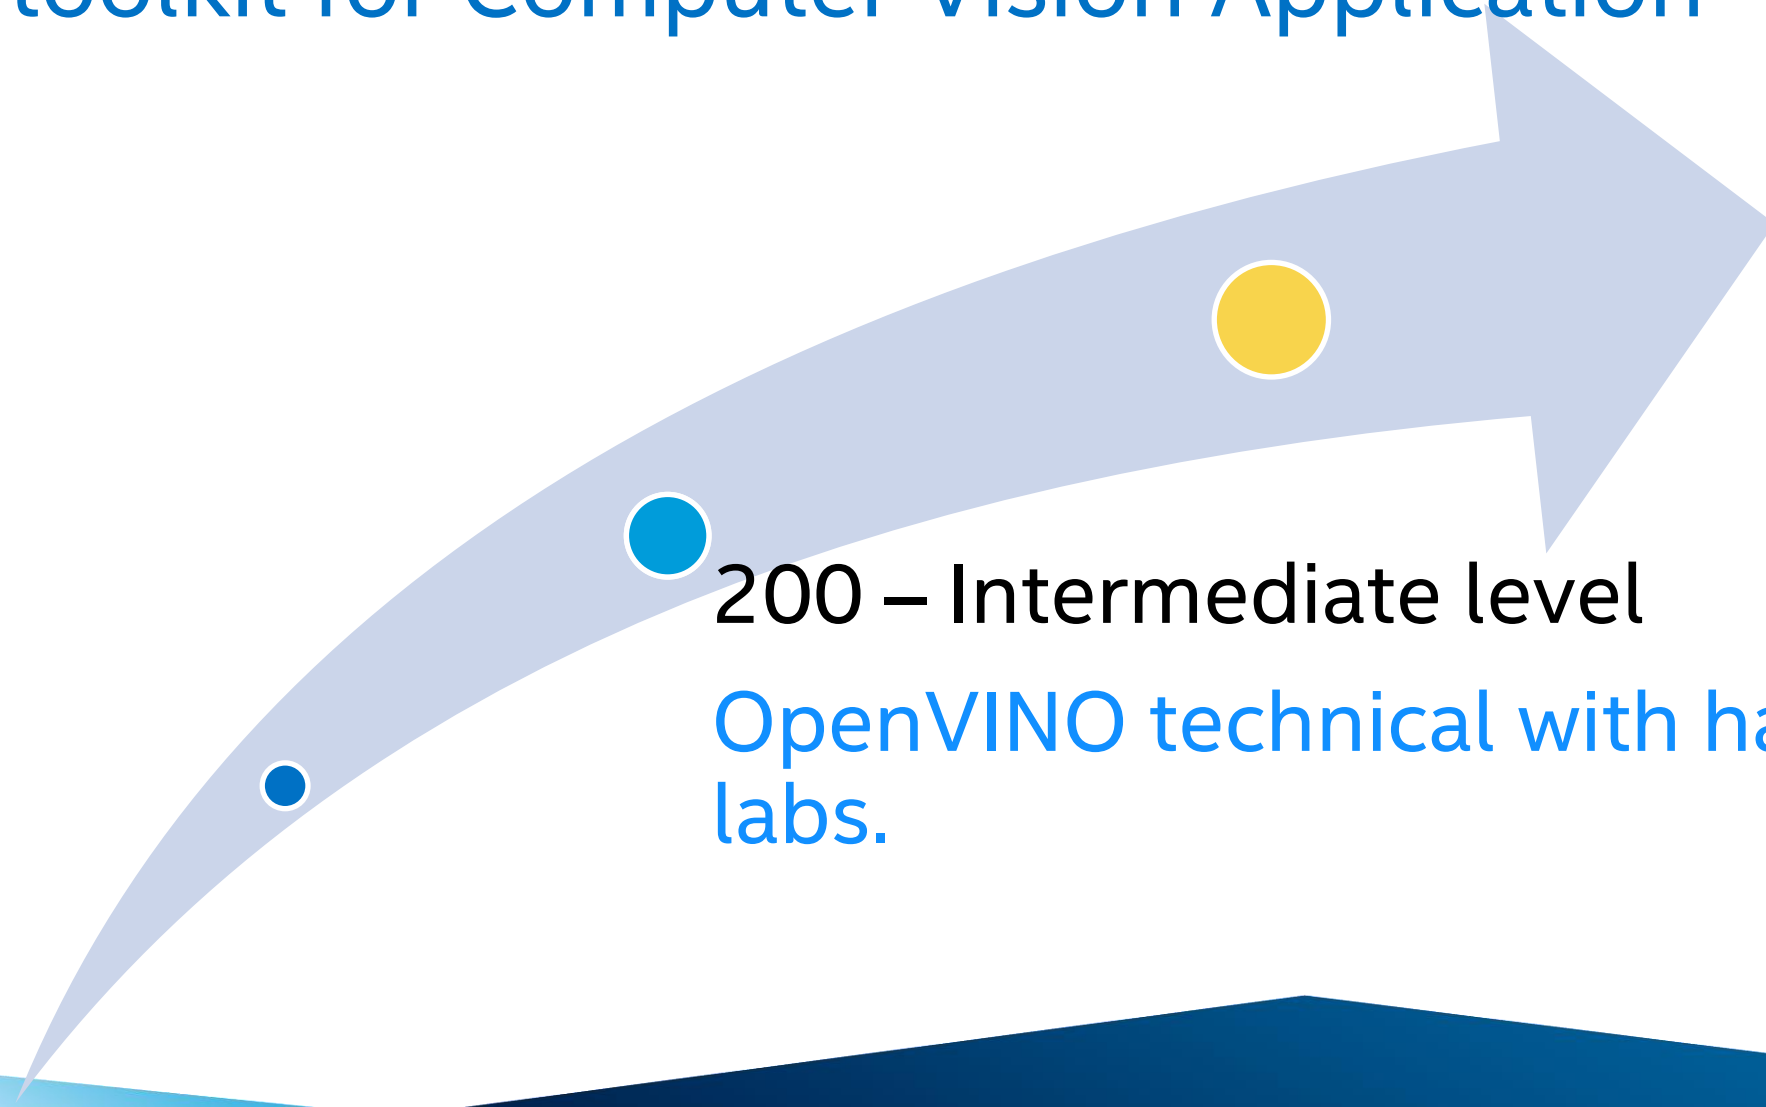

# Introduction to Intel® Distribution of **OpenVINO™** toolkit for Computer Vision Application

100 – Beginner level

Non-technical, fundamentals for beginners

# Introduction to Intel® Distribution of **OpenVINO™** toolkit for Computer Vision Application

# Introduction to Intel® Distribution of **OpenVINO™** toolkit for Computer Vision Application

# Introduction to Intel® Distribution of **OpenVINO™** toolkit for Computer Vision Application

## OpenVINO 100 – Course agenda

**Lesson 1:** Introduction, why do we need Artificial Intelligence (AI).

**Lesson 2:** What is Video, what is computer vision, how do we accelerate it on modern computers.

**Lesson 3:** How to accelerate Video processing

**Lesson 4:** How to accelerate Neural Network for vision applications

**Lesson 5:** Video Analytics pipeline

**Lesson 6:** Demos, OpenVINO at work

**Lesson 7:** The full flow, from Data to a product using Intel tools-Part 1.

**Lesson 8:** The full flow, from Data to a product using Intel tools-Part 2.

**Lesson 9:** Summary, intro to next course (200)

# The “Internet of things”

Data is exploding, small portion is used

# AI is changing everything

# Visual analytics Opportunities

*How to collect data and train it?*

*Which software to use?  
There are so many options..*

*Which hardware to choose?*

*What is a deep-learning model, where can I get one?*

*How can Intel help me get started build an AI product?*

*How to process Video?*

# Intel® Distribution of OpenVINO™ toolkit

Open visual inference and neural network optimization

A comprehensive software solution for AI SW designers

# A summary

- **AI** is our only way to manage the huge amount of data that will be gathered by the “internet of things”
- **AI** will change everything we do in the future and it's probably the best way to building a smart system
- **AI** is a wide range of capabilities – we will focus on **Vision applications**
- There are **many challenges** to building an AI application
- **OpenVINO** is Intel toolkit for building AI applications
  - It's free, has open-source version, easy to use
  - And has many resources that can help you get started
